WOOD FIRES**

Australian Made

Beautiful, safe, efficient energy savers

'PROUDLY WARMING AUSTRALIA'

Warmglo

**A TRADITION IN DESIGN
EXCELLENCE AND PRODUCTION
DEPENDABILITY**

WARMGLO'S SUPERIOR FEATURES

- Robust steel firebox construction brick lined for increased life. The heat storage ability of firebricks improves heater efficiency and stabilises heat output thus ensuring even room temperature.
- Removable heavy duty steel baffle prolongs firebox life and promote secondary combustion of carbon enriched wood gases. The baffle innovation allows for convenient flue sweeping.
- High tech in development all Warmglo heaters feature unique primary and secondary directional air deflectors which precondition and vastly improves wood and gas combustion air mixing prior to ignition. The **CLEAN BURN**™ process featured in Warmglo heaters improves heat performance, efficiency and ensures Low Emissions.
- Advanced in design, Warmglo's finely engineered combustion chamber eliminates the need for a flue by-pass plate as used by some manufacturers, these often seize and require regular service. The Warmglo combustion system provides you with easier hassle free operation.

RANGER 2000

This stylish attractive home heater produces sufficient energy to heat an averaged sized home up to 22 squares. The heavy guage steel firebox is fully firebrick lined to ensure longer heater life and more efficient fuel combustion.

Robustly constructed and uses **CLEAN BURN**™ Combustion principle to maximise heat output and lower emissions. Large Lift-out Cook Tops are also a feature. The "Triple skin back" allows safe, close to combustibile wall installation. THE RANGER maintains all over colour fluency and vitreous enamel finish. Available in Matt Brown, Matt Black or Charcoal. OPTIONS - Two Speed Booster Fan and Rear Outlet.

COLONIAL 2000

Provides cook top capabilities at a price to suit your budget. This model produces powerful radiant heat output with maximum fuel economy. The rear heat shield allows close to wall installation. Tastefully finished in Matt Brown, Matt Black or Charcoal, with vitreous enamel Front Fascia, Door and Ash Ledge. Features **CLEAN BURN**™ Combustion system. OPTION - Rear Flue Outlet.

- Larger ceramic "glass clear" firedoor is completely safe and allows full fire viewing for that "open fireplace" visual effect, warmth and comfort.
- Overnight burning, high efficiency and years of trouble free performance are features of all Warmglo heaters.
- Rear flue outlet option available on Ranger and Colonial Models
- **CLEAN BURN**™ secondary combustion is a feature of all Warmglo woodfires.

HOMESTEAD

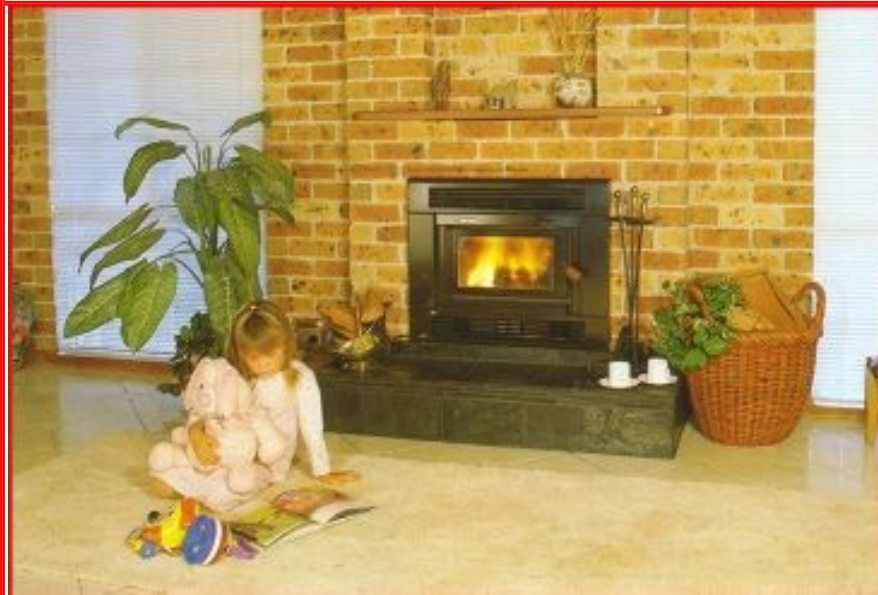

Convert your existing fireplace into an efficient home heating system with the Warmglo Homestead in-built.

Stylish and attractive, the decorator designed front fascia of the Homestead will enhance your living room.

For optimum heat circulation and task efficiency, cool air is drawn into the HOMestead's heat exchange via a powerful two-speed fan, it is then super heated before being delivered through the top vents and circulated into your home.

Available in Matt Brown, Matt Black or Charcoal.

RANGER 2500

Finished in hard wearing "Easy Clean" vitreous enamel. The firebox is constructed from heavy gauge steel fully firebrick lined to increase combustion efficiency and firebox life.

Incorporates **CLEAN BURN** Combustion System - easy "One Touch" air control and large lift out Cook Tops. The large Safety "Ceramic" glass door gives that open-fire atmosphere and a two speed OPTIONAL fan boosts heat circulation.

The Ranger 2500 is second to none when it comes to heating large areas of up to 26 squares.

Available in Matt Brown, Matt Black or Charcoal.
