

# LINEA DUO L

[Model ADH100DL AU]

Heat Output	▪	24.0kW average peak power
Efficiency	▪	60% average
Coverage	▪	up to 250m <sup>2</sup>
Emissions	▪	1.1 grams/kg

From the industry leading Portugal supplier ADF, comes the Linea 100 Duo L Freestanding wood burning fireplace with double sided viewing and heating, ensuring a fabulous and full flame picture from both sides of the fire. Dual doors swing open for convenient reloading and showcase the flames, and lively embers all whilst providing an enchanting ambience and to 24.0kW of heat output.

Externally this stunning fire is made even more attractive by its undeniable contemporary aesthetic, large glass viewing area, with easy opening on both sides, and single air control.

Internally these fires exhibit all the traits that comes with every ADF fire, combing a 5mm steel firebox with high density firebrick that insulates the combustion chamber, enabling superior heat reflection.. In addition an automatic flue damper system is included to significantly reduce smoke ingress to the room on re-fuelling. This is a must have with an larger size firebox., and comes included with every ADF fire.

The ADF Duo is all about contemporary lines and a strong sense of style. Expertly constructed by some of the worlds finest craftsman ADF incorporates their heritage and time-honoured tradition into every design, making the ADF Linea 100 Duo L the ultimate fireplace for dual heating. The Linea 100 is also available as a single sided wood burning fireplace.
